

Congratulations on your purchase of a DUCHATEAU or The Guild Luxury Vinyl Plank floor. Following these easy care instructions will help you maintain the beauty of your floor for years to come.

Daily Cleaning

For regular upkeep of your floor, a simple dry sweeping or vacuuming is the first step. If using a vacuum without a suction only floor attachment, the beater brush should be turned off to avoid scratching or marking the floor.

Weekly/Biweekly Cleaning:

We recommend use of DUCHATEAU Sealed Wood and LVP Floor Cleaner. It is especially formulated to clean your floors so they look as beautiful as the day they were installed.

This product requires no mixing or diluting. Just spray it on and wipe or mop it away.

Do not oil soaps, liquid or paste wax products, or other household cleaners that contain lemon oil, tung oil, silicone or ammonia, as they will dull your floor, damage the finish and void the warranty.

Maintenance & Repair

- A quality untreated dust mop is one of the most important items for regular maintenance to remove any built-up grit.
- Dry Dust frequently to capture and remove dust.
- Alternate method is to use a Vacuum with suction only- DO NOT USE A VACUUM WITH A BEATER BAR HEAD UNLESS YOU CAN TURN THE BEATER BAR OFF.
- NEVER use steel wool, abrasive pads, abrasive cleaners or harsh detergents on a your floor. Wipe up spills as quickly as possible.
- Grease, tar, lipstick and crayon can normally be removed with a damp cloth with mineral spirits. Test on a leftover piece of flooring or in an inconspicuous corner first.
- Minimize scratches by placing protective felt or other pads beneath all furniture, chairs or anything that contacts the floor. Use one-inch wide or greater soft rubber or urethane casters/rollers. Hard plastic or ball type casters will damage hardwood.
- Use transition rugs or mats at all exterior doorways. Rugs or door mats should be shaken out, cleaned and thoroughly dried when they get wet.

- Be certain when using non-skid or other cushions they are appropriate for flooring. Rubber backed mats are not recommended.
- Use a dolly and protective sheets of plywood when moving objects, furniture or appliances.
- Keep pets' nails trimmed.
- Exposure to the sun and ultraviolet rays accelerates aging of flooring, paint and fabrics. Periodically rearranging rugs and furniture can help to minimize this natural occurrence to your floor.
